### STILL WAIT FOR ACTION

No Decisive Movement of Army or Navy in Cuba.

STRENGTH OF SPANIARDS AT SANTIAGO EXAGGERATED.

Kingston, Jamaica, June 22—Special—Advices from Admiral Sampson's fleet leave no doubt that the little band of marines who have been holding Camp McCalla for two weeks past against tremendous odds will be reinforced within a few hours. It is probable that a considerable force will be landed there—probably enough to make a successful attack upon the city. The Spanish strength has been divided into small parties, owing to the uncertainty as to the point at which the Americans will land. It can be massed again at any threatened point, but time will be required for this, and in the meantime the Americans can gain a substantial advantage.

### Spanish Strength Overrated.

Mole St. Nicholas, June 22—Special—Cubans of undoubted truthfulness who have arrived here say that the Spanish force at Santiago has been greatly exaggerated. They say that it does not exceed 10,000 men, 8,000 of whom are soldiers and 2,000 sailors. They are fairly equipped but not in the best of fighting trim because of having been kept on short rations for more than a month. The commanders are apprehensive of the result of an encounter with the well equipped and enthusiastic Americans, who will greatly outnumber them. There are at least 5,000 Cubans in the vicinity of Santiago, divided into small bands, but they can be massed for united action within forty-eight hours.

### Anxious to Escape.

Mole St. Nicholas, June 22—Special—Cuban spies bring a report that Cervera is preparing for a last and desperate attempt to escape. The Spanish cruisers, the spies say, drop down the bay every night, hoping that a storm will cover their escape, or that Sampson's fleet is scattered. Neither opportunity has presented itself, and now Cervera has taken aboard all the coal in Santiago and has put his ships in the best possible condition. As it is believed the Merrimac wreck can be passed by vessels in single file, there is still a chance for a naval battle.

### No Anxiety Felt.

Washington, June 22—Special—The absence of definite news of the landing of troops at or near Santiago does not give concern to officials here. The work is one of great labor, and must be conducted with the utmost care as a false move might result in irretrievable disaster. It is believed that a foothold upon Cuban soil has been obtained ere this, and that the way has been safely prepared for the debarkation of the entire army.

### The Spaniards Cowed

Camp McCalla, June 20—Special—For three days the Spaniards have not fired upon the marines camped here. They seem to be thoroughly cowed. Cuban scouts report three hundred Spaniards killed in the various skirmishes fought since the marines landed.

### Realize Their Peril.

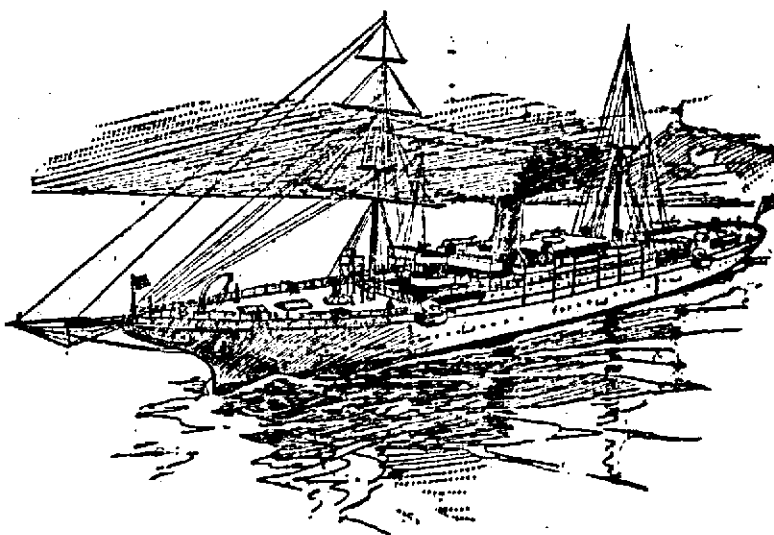

Key West, June 22—Special—Havana is very quiet and lacks the gay appearance of some weeks ago. The residents seem to realize that the end is near. The strict blockade maintained by our fleet is probably responsible for this feeling.

### Reinforcing Santiago.

Off Santiago, June 22—Special—When Garcia visited Sampson on board the New York he brought information that the Spanish troops under Pando were marching in a large body to reinforce the Spaniards at Santiago.

### Madrid in Terror

New York, June 22—Special—A London cable says Spain is in a terror. Every effort is being to have the capital strengthened. Eight thousand troops have been marched into Madrid.

Buffalo, N. Y., June 22—[Special]—Paopento Borenia was arrested this morning on suspicion that he murdered Philip Forestano, whose mutilated body was found in a trunk at the bottom of the river yesterday. The theory is that Borenia killed Forestano because the latter was intimate with Mrs. Borenia.

### HIS HEART IS MUSICAL

Edward Lewis' Vital Organ Emits Strange and Musical Sounds.

The man with the musical heart, known as Edward Lewis, but whose real name is Joseph Milkowski, is in the city today, and has been interesting local physicians in his case. The phenomenon consists of a peculiar ringing sound which accompanies each pulsation of the heart, and is apparently caused by a partial obstruction of the vessels it contains. He enjoys the best of health and apparently experiences no inconvenience from the abnormal condition.

Mr. Lewis gives no public exhibitions but places himself at the disposal of the medical fraternity whenever he goes, receiving a small fee for each examination. Several local physicians examined him today and a rift to the genuineness of his claim. He leaves for Beloit and Illinois tomorrow.

## TROOPS ARE LANDING

Protected by a Heavy Fire From Sampson's Fleet.

CORBIN TO BE MADE LIEUTENANT GENERAL OVER MILES.

### Miles May Be Superseded.

### An Absurd Alliance.

Washington, June 22—Special—The reported alliance between France and Germany to prevent the American occupation of the Philippine Islands is ridiculed here. Such an alliance is looked upon as impossible. Germany might be willing to enter it, but France still cherishes too great an enmity towards the Teutonic race to make a union possible under any circumstances. No government of France that proposed such a thing could remain in office twenty four hours. If the national assembly did not overthrow it the people would start a revolution that would destroy it instantly. Oil and water may commingle, but France and Germany will never be allied as long as the events of 1871 are held in remembrance.

### Idle Talk of Peace.

Washington, June 22—Special—There is absolutely nothing in the report sent to the effect that peace proposals are being considered, or have been received by the officials here. Spain has made no overtures, nor have any been made on her behalf by other European nations. This government is now in a position to dictate its own terms, and will not consent to cessation of hostilities until all its just demands have been satisfied. Spain is not yet ready to concede these, and therefore peace talk is idle.

### BLACK DEATH RAGING.

A disease as terrible as the pestilence known as "Black Death" is now raging in this country. The victim often does not know that he is sick until it is too late to cure. The disease is not known by this name, nor have its characteristic and fatal results been fully recognized until recently.

The disease referred to saps the vitality, energy and ambition, makes people languid, dizzy, despondent and nervous, absent minded and forgetful; they complain of weak, aching back, palpitation of the heart, capricious appetite, tire easily, fear impending trouble, urine contains sediment on standing, involuntary discharges, frightful dreams, nervous debility and weakness, sometimes resulting in insanity, paralysis, etc. In fact, the spring of vital forces having lost its tension, every function of life wanes in consequence.

This destructive disease, which causes premature death to thousands every year, is not understood by the medical profession in general, and persons suffering from it are often treated for some affection of the stomach, heart, lungs, liver, kidneys, etc.; while in fact the disease is due to lost vitality, often the result of indiscretions and excesses, exposure or hard work in early life. The disease effects both young and middle-aged, rendering them for the duties of life, rendering business a failure, marriage unhappy and life a burden. Anyone suffering from this widespread disease should at once, before it is too late, consult some eminent specialist.

Dr. N. E. Wood, the eminent author and celebrated specialist of Chicago, has given this disease close and careful study, and has had a very large and successful experience in its treatment, and is the author of several popular medical works regarding the disease. He is also president of the Chicago Medical and Surgical Institute, and treats all forms of chronic and nervous diseases of men and women. He visits Janesville Saturday, June 25, for free consultation with the afflicted, at the Hotel Myers (one day only). He will also mail his booklets and question lists free to those who are unable to call on him in person. His home address is No. 617 LaSalle avenue, Chicago.

### HE COULD NOT SLEEP NIGHTS

That Was the Reason Why Roadmaster George Bennett Resigned.

George Bennett, of this city, who resigned his position last week as roadmaster for the Chicago, Milwaukee & St. Paul railroad, left the service of the company because he could not sleep nights on account of the strain he was obliged to bear in relation to his work.

Mr. Bennett has been in the railroad business since 1892, and is justly entitled to a rest. He first entered the service of the Chicago & Northwestern railroad in 1892, where he worked for fifteen years, when he left to work for the Union Pacific, with which company he labored for eleven years. In 1896 he commenced with the St. Paul company, and has since been doing excellent work.

Harry North, of this city, is in receipt of several varieties of those poisonous insects as well as a horned toad and several rattlesnake rattles sent here by Mr. Crossman.

#### A NEW APPORTIONMENT.

Plan Adopted For Representation in the Democratic State Convention.

**Madison, Wis., June 22.**—The democratic state convention will be held in this city Wednesday, Aug. 31. This was decided at the meeting of the state central committee at the Plankinton house last night. The committee also changed the basis of representation, fixing it at one delegate for each 250 votes, or major fraction thereof, cast at the last election.

This will make a convention of over 800 delegates. The exact number has not been figured out as yet. This will be the largest state convention in the history of the party in this state.

There was great interest in the meeting of the committee, every member being represented in person or by proxy.

Chairman Peck said the reports received from all sections of the state show that the people have recovered their senses once again and that they are going to hand the government of the state over to the democrats again. The call for the state convention will not be issued until next week, as it will take some time to apportion the delegates in the 100 districts under the new arrangement. It was the general opinion that the people demanded larger and more representative conventions and that, by fixing the representation on the new basis, a convention thoroughly representative of the people will be secured.

There was no talk as to the probable course of the party or as to the issues on which the campaign will be fought.

#### WISCONSIN TOBACCO MARKET.

Revival of Business Noted—Good Prospects for New Crop.

**Edgerton, Wis., June 22.**—There has been a good deal of revival in business in the tobacco markets of the state of late. The buying of the '97 crop, which had been almost suspended for several weeks, has again been taken up, and the transactions from first hands have amounted at least to a couple thousand cases the past two weeks. The tobacco was generally held by large growers, unwilling to accept the prevailing prices until the present time. Prices at which it is now sold range about seven cents, very little going under that figure and a fraction above in some cases. Some large transactions have also taken place among packers of late. Since the Bekkedal sale of 3,350 cases of '97 to Sutter Bros., of Chicago, a Philadelphia firm, Freyer & Eisenlohr, have purchased nearly 8,000 cases of old stock, '93 to '98, from Stoughton, Janesville and Edgerton dealers. The new crop is being planted under favorable conditions and the bulk of it will be safely placed in the fields by the close of the week. An increased acreage will be planted over last year and an early start secured. Seasons are rare when the weather conditions and the plants are right for so early closing for tobacco planting. The shipments out of storage for the week reach thirteen carloads, 650 cases, to all points from the station. Since last report 320 cases of cigar leaf were exported from New York.

## THIS DAY IN HISTORY.

1527—Nicholas Machiaveli (better known as Machiavelli), Italian statesman, who reduced intrigue to a science, died; born 1469. Machiavelli held the office of secretary to the ten who managed the diplomatic affairs of the republic of Florence. He wrote upon the art of war and also the book "Del Principe," which has consigned his name to infamy.  
1600—Emile de Girardin, Journalist, red republican and speculative writer, born in Paris; died 1881.  
1815—Second and final abdication of Napoleon; Waterloo was lost by the French June 18.  
1884—At 11 p. m. in Smith's room, Captain Schley's command reached and rescued Lieutenant A. W. Greely and six others, only survivors of the Greely expedition to Lady Franklin bay.  
1897—Christian K. Ross, father of Charles Ross, whose mysterious abduction many years ago caused a national sensation, died in Germantown, Pa.

## REFORM FOR OFFICE.

The Madison State Journal, in speaking of Mr. LaFollette and his machine, says the ex-congressman is after office, and all his posing and picture-taking are used as aids to that end. Mr. LaFollette may be fond of the people, and very sincere in his sentiments, but it is the desire for office that is all-consuming with him.

Continuing, the Journal says: "He is out for 'reform' for office. That he has a right to seek office is indisputable. That his friends have a right to support him is equally so. That he possesses good ability is generally admitted. But there are some good republicans who believe that there are other members of the party who are entitled to consideration. They do not think he ought to be in the field all the time. Neither do they approve methods by which he seeks to attract attention to himself and promote his own schemes. It is well enough for the people to understand the situation exactly as it is. Mr. LaFollette is anxious to be governor or United States senator. All his efforts in speech making throughout the state at fairs, picnics, conventions and in churches have been solely with this in view. A newspaper has been started in his interest, and a literary bureau is kept diligently employed in circulating LaFollette literature. He has his lieutenants and organs in different parts of the state, and with all his protestations against 'machine politics,' he is the head and beneficiary of the only completely equipped political machine now in operation in Wisconsin. We simply state these facts, and everybody here is familiar with them; to let the people of Wisconsin generally know Mr. LaFollette's history, ambitions and operations, so that when his claims for support are urged, they may act intelligently."

## RECORD PROVES THE LIE.

Governor Scofield's own language in vetoing the faulty sleeping car and express company taxation bills, gives the lie to the charge that he is too friendly to the corporations. Both of these bills were vetoed because of flaws in their construction. In explaining his refusal to attach his signature, Governor Scofield made the following recommendations:

"I desire to call your attention to the importance of this measure and also to that of bill No. 019 A, (the sleeping car bill), and to urge upon you the necessity for properly enacting both bills before the adjournment of this session. If we were to maintain in this state a righteous system of taxation, it is necessary that we see to it that large corporations doing business within our borders and receiving without discrimination or at the fullest protection of our laws, shall not escape paying their just share of the expenses of the government."

There is the record, and Governor Scofield wrote these sentences nearly two years ago. The anyone should have the face to quote that vetoing of these bills as an evidence of friendliness for corporations, is amazing, yet some of Gov. Scofield's critics—men who know better, too—have repeatedly done so. The words of such men, however, carry no weight. The people are quick to judge between lies and the truth.

Dodgeville Chronicle—"We have received the last issue of 'The State,' a weekly newspaper published in Madison by a reorganized company, and is successor of 'Old Dane.' It is crammed

with local and political news, and is republican in politics on the condition that the republican party adopts its views. As Mr. LaFollette's name is only mentioned fourteen times in the editorial columns of the first issue, it may not be at its best yet."

Assemblyman L. A. Lange, editor of the democratic Fond du Lac Reporter, announces that he is willing to give up his free pass if the democratic platform decrees it. Mr. Lange would not feel the loss of his pass, however, as the railroads give him mileage books in exchange for advertising. Some people are very patriotic—when their patriotism doesn't interfere with their business.

If Henry O. Payne owned creameries instead of street cars he would get the unqualified endorsement of the reform-for-office machine. A man who owns creameries is one of the plain people, but a man who owns street cars is a monopolist. What rot!

"The terrible Turk" had no show to win the wrestling match with Evan Lewis. Lewis, the police, the Bogans, and the Da Pleasias were against him. The Turk, in fact, had to compete against a "concert of the powers."

President McKinley personally thanked Congressman Cooper for assistance rendered in carrying out the administration's policy with reference to Cuba, yet some people have the face to call the able congressman an "enemy of the president."

Henry J. Baumgartner, of the Milwaukee branch of the LaFollette machine, says he is not a candidate for any office. "Blessed is he who seeks nothing, for he shall find it," as the colored preacher said.

Editor Ellis B. Usner, of the La Crosse Chronicle, answers an inquiry as to his politics by saying "when in doubt play trumps." This is the first indication as to what the Chronicle's game will be.

The republican party should advertise for bids and sell its political junk for what it will bring. Then there would be less noise in camp, and more hard work for republican principles.

Another "shakeup" has occurred in the Chicago police department. The changes are for the good of the service.

## It's Fish Again

It is surprising the number of fish eaten there are in Janesville. Every week our fish market is crowded with fish orders and the number seems rather to increase than otherwise. Of course it is a well known fact that our store holds out larger inducements to fish eaters in the way of assortment than any other and probably this is the cause of our ever increasing business. Every Thursday we receive the largest invoice of the week direct from the lakes so that everybody will have plenty of time to secure their meat for Friday dinner. Send in your orders Thursday. PRESENTED WITH ACUT GLASS  
ROSE BOWL.

Repast Served This Noon at Christ Church Parish House—Mrs. J. B. Dearborn Entertained This Afternoon at Cards—Other Social Events Past and Future.

In the spacious dining hall at the Christ Church Parish house this noon a number of the pupils of Prof. J. H. Kowalski gave a delightful banquet in his honor.

At 12:15 o'clock the guests seated themselves at a table that did not lack for the want of good things to eat. It was tastefully trimmed with flowers, while in the center stood a large bowl filled with roses.

An Exchange of Gifts.  
At the conclusion of the repast the guests surprised their teacher by presenting him with a handsome cut glass rose bowl in token of valuable services rendered by him in the past. Each guest was presented by Prof. Kowalski with a miniature photograph of himself in the shape of an enameled stick pin that was attached to a neat little card, the end of which bore a witty sentiment from the pen of the donor.

Prof. Kowalski since coming to Janesville from Chicago has made many friends, and today's event was a fitting compliment of the high esteem in which he is held. Those who enjoyed the repast were:

## WERE UNITED IN LOVE STAR STATE

WALKER-M'KENZIE NUPTIALS  
ARE SOLEMNIZED.

Marriage Was Performed This Morning at 9:30 O'clock at Ennis—Sheridan-Mooney Wedding Took Place at St. Patrick's Church Today—Contracting Parties Well Known

At 9:30 o'clock this morning at Ennis, Texas, was solemnized the marriage that united as husband and wife James Walker, of Ennis, Texas, and Miss Cora McKenzie, a former well known Janesville girl.

After a wedding trip to points of interest along the Gulf of Mexico the happy couple will return to Ennis, where they will find awaiting them a cozy furnished home, put in readiness by the groom.

The bride is a young lady who is certainly deserving of all the happiness which becomes hers as a bride. Prior to her removal to this city she resided in Evansville, where she was held in the highest esteem by a host of friends. After her removal to Janesville she made her home with Dr. and Mrs. E. E. Loomis, and for some time held the responsible position of stenographer in the law office of Fether, Jeffries, Fildes & Mount.

The groom is a young business man of sterling worth who is a prime favorite in Ennis. He conducts one of the largest shoe stores in the city, and is prominent in all that concerns the welfare of the community.

A host of local friends extend hearty congratulations.

Sheridan-Mooney

At St. Patrick's church at 8 o'clock this morning Rev. E. M. McGinnity pronounced the words that united as husband and wife Miss Mary Mooney and Edward Sheridan. Miss Annie Mooney, a sister of the bride and John Sheridan, brother of the groom, acted as bridesmaid and best man. Following the ceremony the happy couple were driven to the home of the bride's parents in Blackhawk where a charming breakfast awaited them. The bride is a most popular young lady and is the daughter of Mr. and Mrs. N. Mooney. The groom is the son of Mr. and Mrs. Wm. Sheridan, of the town of La Prairie, and is at present in charge of a valuable farm in the town of La Prairie, on which they will at once go to housekeeping. The young couple received many presents both beautiful and valuable, and they will assume charge of their new home with the best of wishes from countless friends.

Charles-Lester.

The marriage of Miss Hattie Lester, of this city, to Charles Searles, of Sharon, will be solemnized this evening in this city.

The bride-to-be is the daughter of Mrs. Mary Lester, of Riverview Park, and is a most worthy young lady. The prospective groom is connected with one of the Sharon banks, and is a business man of high character. They will go to housekeeping in a furnished home in Sharon that has been made ready by the groom-to-be.

Last evening Mrs. W. E. Olinson and Miss Ida Gibson gave a reception to a number of neighboring lady friends at the home of Mrs. Olinson, 31 Wheeler street, in honor of Miss Hattie Lester. Light refreshments were served, and the event was a fitting farewell.

Stroh-Drafahl.

The Bookford Star of this morning says:

The numerous friends of Alfred G. Stroh will doubtless be surprised to read that "Al," as he is popularly known, is a Benedict.

The young lady who is now Mrs. Stroh was Miss Anna Drafahl. She is the daughter of John Drafahl, a prominent farmer living at Center, Wis., a few miles north of Janesville. The ceremony which united the young couple was solemnized in Janesville on Wednesday, June 15, the Rev. Pence being the officiating clergyman.

## READY TO GO TO THE WARS

Six Recruits Were Examined and Accepted By Dr. Gibson

At 2 o'clock six recruits had been examined by Dr. James Gibson and sworn into the militia ranks by Lieut. Baldwin. The men were: John Keesse, B. A. Mitchell, Ralph Inman, B. H. Balderson, Harry Swift and W. P. Collins.

## TRUSTEES INSPECT ROCK COUNTY FARM

FOND DU LAC OFFICIALS WERE ALL SURPRISED

Say They Never Inspected a Better Kept or More Complete County Farm—Have Gained Many New Ideas—Returned Home on Noon Train.

Five of the trustees of the Fond du Lac county asylum and poor house arrived in the city last evening for the purpose of making a thorough inspection of Rock county's new asylum and poor house situated north of this city.

The party included: F. A. Hartless, M. Thelen, S. B. Stanchfield, S. Manderscheid and E. P. Hall.

Visit the County Farm.

After spending the night and part of the morning at the Hotel Myers the trustees were driven to the county farm where they were cordially received by Superintendent Aller.

In charge of the farm off late the visiting delegation were shown through every building on the grounds.

In the asylum they spent the greater part of their time and were each surprised to find such a well arranged structure. The rooms they found to be well lighted and ventilated.

At the poor house they found that the same state of affairs existed. The large barns were next visited and it was surprising to see how neat and well everything was when it is considered that inmates do the work.

Were Pleased With Their Visit.

The Fond du Lac officials made notes of all that met their gaze and some decided improvements are expected soon in the Fond du Lac county institution as the result of their visit.

"I have visited many asylums and poor houses in the west of late years," said one of the officials this morning, "but never have I seen one that fills the idea of perfection as well as the one that Rock county has the honor to lay claim to."

The trustees returned home on the noon train.

## HUNGER RULES IN HAVANA.

People Are Flying from the Doomed City.

## UTMOST MISERY PREVAILS.

Gen. Blanco Has Issued Despotie Orders Regarding the Food Supply—Large Quantities of Provisions Confiscated and Distributed.

Kingston, Jamaica, June 22.—Hunger is stalking gaunt through Havana streets, and before it are fleeing the rich inhabitants.

Gorged officials, afraid to face misery themselves, have left the troops to starve.

Efforts are being made by merchants of the wealthy classes to provide for the soldiers' wants.

The steamship Adula, which arrived here from Cienfuegos, brought ninety-eight passengers, the majority of whom are from Havana. They fled to escape the privations of the doomed city.

Misery of the worst kind prevails among the lower classes. Their condition is such that Blanco himself had to interfere to alleviate their suffering.

He issued an order to Gen. Arolas to confiscate the stored up provisions in the hands of rich merchants and private inhabitants for the wants of the troops and their sale at moderate prices to the poorer people.

Inland towns have been deserted, owing to the lack of food. Scarcely any inhabitants remain in Guanabacoa.

The Adula reports that the food conditions in Cienfuegos are good. Very little privation exists there.

## Increase in the Revenue.

Washington, June 22.—The monthly statement of the collections of internal revenue shows that the May collections amounted to \$14,098,117, an increase over May last year of \$3,281,225. The receipts from the several sources of revenue and the increases, as compared with May, 1907, are given as follows: Spirits, \$7,090,460; increase, \$1,988,057; tobacco, \$3,754,062; increase, \$1,013,759; fermented liquors, \$1,311,505; increase, \$247,887; oleomargarine, \$88,014; increase, \$23,712; miscellaneous, \$28,074; increase, \$4,962. The net increase in the receipts during the last eleven months was \$19,938,808.

## Hobson's Bright Future.

Washington, June 22.—The proposition to transfer Naval Constructor Hobson to the line and advance him to the grade of lieutenant commander contains some interesting features which indicate the advantages that officer will gain by any such promotion. He would be much younger, possibly by twelve or fifteen years, than the officers usually in that grade. This will enable him to remain much longer on the active list than any of his seniors, and he will be able to attain the rank of rear admiral—the highest grade in the navy—within twelve years.

## Convention to Meet Aug. 31.

Milwaukee, June 22.—The democratic state convention will be held in Milwaukee Aug. 31, just two weeks after the republican convention. This date was fixed at the meeting of the democratic state central committee. The basis of representation is one delegate for each 250 votes cast at the last presidential election, the same as that of the republicans. This will give the democrats about 800 delegates in the convention. The selection of a place for holding the convention was left to the chairman to decide.

## Can Name Colored Officers.

Indianapolis, Ind., June 22.—Gov. Mount has received instructions from the secretary of war to name colored officers for the two colored companies this state will furnish for the immune service. The telegram is as follows: "You are authorized to commission as captain, first and second lieutenants colored men for all the colored companies raised in Indiana."

## War Claims Are Discussed.

Washington, June 22.—After passing several bills of minor importance Tuesday the house, in committee of the whole, considered a bill to refer to the court of claims certain claims of persons for property taken or destroyed by the confederate invasion into the southern counties of Pennsylvania. The bill brought on a long debate, in which it was vigorously advocated and opposed.

## The Pope Abandons Hope.

Rome, June 22.—The vatican authorities profess to have no knowledge of or share in the present alleged movement of the continental powers toward peace. At the pontifical secretariate it was said the rumored peace intervention of the pope was unfortunately groundless, his holiness for the moment foreseeing absolutely no hope of success.

## Troops to Be Negroes.

Topeka, Kan., June 22.—Gov. Leedy has announced that the two battalions allotted to Kansas under the second call for volunteers will be recruited from the colored population. The governor has been urged to officer both battalions with negroes, but he has not yet decided as to this point.

## Friends to Meet in Indiana.

Richmond, Ind., June 22.—Preparations are being made for an important event in the Quaker world—the general Association of the Friends (Hicksite) of America, Aug. 22 to 26. From 600 to 1,000 visitors are expected.

## FIFTY ARE DROWNED.

Disaster at Launching of a New British Battleship.

London, June 22.—During the launching of the new British first-class battleship Albion at Blackwell Monday by the Duchess of York, a ceremony at which the United States ambassador, Col. John Hay, and Mrs. Hay and Lieut.-Col. Well, the United States naval attaché, assisted, the displacement caused an immense mass of water to rise on all sides, completely submerging one of the lower stages of the yard and immersing hundreds of people. It is estimated that fifty persons were drowned. The bodies of more than thirty men, women and children have been recovered.

## Thirty-Four Boats Are Lost.

Lake Bennett, N. W. T., June 7 (via Tacoma, Wash., June 22).—A report has just reached the police headquarters from Windy Arm, between Caribou crossing and Lake Tagish, that thirty-four boats were caught in the ice jam five days ago and were wrecked. No lives are reported lost. Between this point and the Tagish custom house, 150 miles distant, are between 3,000 and 4,000 boats, and it is impossible to obtain anything like trustworthy information as to details.

## Wants the Stamp Tax Delayed.

Washington, June 22.—Secretary Gage has written a letter to the house ways and means committee and the senate finance committee stating that it is absolutely impossible to put the adhesive stamp sections of the war revenue measure into operation on July 1, and asking that the time be extended until July 15, and that the commission be increased from 1 to 3 per cent in order to increase popular interest in the distribution of stamps.

## WILD TALK OF ALLIANCES.

France and Germany Said to Have Joined.

## PHILIPPINES ARE THE PRIZE.

Emperor William Said to Be Willing to Give Back Alsace and Lorraine if He May Take the Islands in the Pacific Ocean.

Madrid, June 22.—Very many rumors are current in diplomatic circles. The one most generally accepted is also most apparently extravagant.

According to the latest rumor, negotiations have been commenced between Spain, Germany and France. By agreement with France and Spain Germany would acquire sole proprietorship of the Philippine Islands, in exchange for which she would return Alsace and Lorraine to France as recompense for this.

Germany and France would intervene to restore peace between Spain and the United States, and France would agree to pay the amount of the American war indemnity in addition to the actual expenses of the war itself.

This combination, it is said, is being seriously examined by the three interested powers.

This much is certain—that last week Senor Sagasta had an interview with a special envoy from the German emperor, who was charged with the duty of making the following propositions to the Spanish government in behalf of his majesty:

Germany would establish a protectorate over the Philippines for twenty years, thus taking the place of Spain in the archipelago. She would re-establish order after having sent troops in sufficient numbers to bring the state of war in the islands to an end.

As a return for this temporary protectorate Germany would agree to pay into the Spanish treasury the sum of 500,000,000 marks in gold in order to continue the war in Cuba.

Sagasta has not yet given his reply to the German emperor's envoy, but information from a sure quarter is that his reply will be in the negative.

One Line of Janesville Evidence is Worth a Column of Foreign Testimony.

Make a mental note of this. The endorser is well known in Janesville.

His veracity is unquestioned. You are reading local evidence, investigating home testimony. Janesville news for Janesville people.

Suspicion can't lurk around it. Honesty is its prominent characteristic.

Home endorsement its salient point. Mr. Thos. Pratt of 281 South Main St. says: "I doctored off and on for forty years, attempting to rid myself of backache, which came on by spells, very painful when at their height and even when somewhat allayed, the dull aching grinding was sure to manifest itself. If I overtaxed myself, caught cold or did any work which brought a strain on the muscles of the back. Often I have been so lame and sore that there were days I was confined to my room almost helpless, certainly unable to get up or down. Like a great many other people in Janesville I procured Doan's Kidney Pills at the Janesville Co's. drug store, led to do so by the peculiar advertisement which riveted my attention. After taking a thorough course of the remedy I was able to go to the quarry and sling an eighteen pound hammer without showing any signs of a recurrence. If I am subjected to future attacks I know what remedy to employ."

## TO MAKE RAMIE.

Will Buy Land on Which to Cultivate Grass Cloth Plant.

St. Louis, Mo., June 22.—A company has been incorporated here to manufacture ramie, or grass cloth, fiber. The capital stock is \$50,000, but will be increased many times that amount. Albert M. Price, Jr., who is one of the incorporators, is the inventor of the machine that will revolutionize the manufacture of ramie fiber and it is this machine that will be used by the company. The incorporators are George Charles D. McClure, vice president of the Missouri Railroad company and the Lindell Railroad company; Moses C. Wetmore of the Liggett & Myer Tobacco company; L. D. Kingsland, police commissioner and head of the Kingsland Manufacturing company; Charles Nagel, attorney; Theodore G. Meier, secretary of the Helme Boller company; Albert M. Price, the United States shipkeeper, and his son, Albert M. Price, Jr. The company now controls extensive tracts of land in Mexico, upon which the ramie plant is already growing in rank profusion. Its patents have been allowed in the United States and preparations are under way to have them allowed in all countries of the world simultaneously.

## CHINA INSULTS DEWEY.

Supply Ship Huddled Away with but Very Scant Ceremony.

New York, June 22.—A Hongkong cable states that the American fleet's supply ship Zafiro, sent there by Admiral Dewey to obtain food and other necessities for the fleet, and which anchored in Chinese waters a few miles from here, has been ordered away by the Chinese authorities. These men refused to allow the Zafiro to buy either coal or provisions, and ordered Consul Wildman to get the ship out of the empire's jurisdiction at once. Not even the customary twenty-four hours' notice was given. The Zafiro is now in British waters at Hongkong. ## ANNEXATION IS DISCUSSED.

Senators Mitchell and White Oppose the Newlands Resolution.

Washington, June 22.—Interest in the discussion of Hawaiian annexation, which is proceeding in the senate, already has begun to flag. Early in the present session the senate debated the question behind closed doors for six weeks. During that time a majority of the speakers were accorded close attention. It is evident from the proceedings Tuesday that the senators will not become enthusiastic over arguments which are not new to them. Tuesday Mr. White (dem., Cal.), the leader of the opponents of annexation, spoke for three hours and a half. His argument was skillful and was presented with oratorical ability, but it failed to command the attention from the senators that it really deserved. Mr. White had not concluded his argument when the resolutions were laid aside for the day. Mr. Mitchell (dem., Wis.) opened the discussion with a brief speech in opposition to the resolutions.

G. Houghton, West Bay City; land commissioner, J. H. Baker, Bay City; superintendent of public instruction, Philander Brant, Baldwin; member state board of education, M. O. Graves, Petoskey.

The loss is estimated at \$150,000.
